

FJB Volunteers Code of Safety

- Always proceed with SAFETY and CAUTION. Your health and well-being are of highest importance! Stay off steep or uneven surfaces!
- Arrive wearing clothes that protect arms, legs & feet. Sunscreen & bug spray are good ideas!
- Use safety features such as gloves or pick up grabbers provided by FJB!
- Avoid picking up or moving hazardous, heavy, sharp or dangerous objects or broken glass! *(Bring those to the attention of a Team Captain)*
- Cross streets only at designated cross-walks with extreme caution, looking both ways before crossing, and obey all traffic signals!
- NEVER walk into protected dunes and sea grasses, or approach or handle wildlife! *Near dunes, stay in the sand, reaching in with grabbers only!*
- Follow directions from Team Captains (orange shirts) for a safe and rewarding volunteer experience!
